## *Administration and Faculty*

The faculty is one of the very important parts of a university. The students at Assumption can be proud of their faculty which ranks as one of the highest in intellectual calibre in North America. The administration, so often ignored by students, is responsible for making Assumption the high-ranking intellectual centre that it is.

When Duty Calls, Christ Calls!

In such a restless age as ours when countless interests, pleasures, ideas and ideals avidly complete for our very limited time, energy, and support, it is difficult for everyone and impossible for the unwary to decide upon the proper order of priority in our daily endeavors. The surest and quickest solution for any such puzzlement is to remember that God's interests always come first. His will must be our criterion as the Lord's prayer intimates. To add clarity and point to this basic decision we must insist that the duties of our state in life take precedence over all other consideration. It follows that our studies must first of all be dedicated to Christ not to Mammon or self; it follows that even secular subjects having apparently the least link with religion must be motivated by love of God; it follows that, so long as we are students, it is not just regrettable to neglect our studies but a failure in our duty to God with sinister connotations now and for the future. Oddly enough, one breach of duty invites another until both religiously and academically we are following the fatal line of least resistance. Failure in life is seldom the product of one disastrous decision; rather it is the unsightly fabric woven bit by bit each day through failure to do the duties of our state in life. When the siren call of pleasure or some other alien interest tries to lure us from the call of duty which is the call of Christ, let us lift our eyes to the crucifix or meditate upon the words of Pius XI. "The Cross of Christ- the very name has become for many a stumbling block and for others foolishness; but to those who believe, it remains forever the sign of redemption, the emblem of strength and the sublime dignity of good morals. We live beneath its shadows, we die in its embrace. On our tombs it is raised to proclaim our Faith, to testify to our hope in the eternal Light."

Wishing you God's choicest blessings and especially fidelity to the duties of your state in life I remain

Devotedly yours in Christ  
John C. Cody  
Bishop of London

*Very Rev. E. C. LeBel, C. D. C.S.B. M.A.*

My Dear Students:

We are so busy tailoring ourselves to our jobs and perfecting our various roles in life that we often ignore ourselves. Knowing who we are takes courage, but it is the only way to live.

From time to time the ultimate questions "Who am I?", "Where did I come from?" "Why am I here?", "Where am I going?", intrude themselves and demand an answer. They are disturbing and uncomfortable questions. We can and often do hide from them by a chaotic program of activity. We can turn on the radio or watch TV rather than submit to a silence which brings with it these inevitable and tormenting questions.

Sooner or later we must face up to them. When we have answered them to our complete satisfaction, then and only then we may say we begin to be - not merely exist. Each of us will discover that the soul demands to be unfettered by time and unconfined by space. We are made for eternal things. Let us be courageous and face the problem of being ourselves before trying to be anything else.

Undergraduates relax in the more scenic spots about Assumption's campus.

## *Undergraduates*

Undergraduates have a lot to look forward to in the coming years at Assumption. Two new buildings are already underway, one of them being the University Centre. Undergraduates will, in no time, be the leaders of the world. The grounding they get at Assumption will help them in all phases of their life.

Students take time out to talk about extra-curricular subjects.

## *Organizations*

Students find plenty of intellectual and social stimulation when they play active roles in the campus clubs and societies. There's never a dull moment in the organizations, from co-curricular clubs which follow up the paths they normally do not meet in a university schedule.

## The President's Message

A university is a place of tradition. Each student or teacher that joins its ranks associates himself with all that has gone before. He is moulded by the past even as he himself moulds the future. The campus community lives on.

So it is at Assumption. Freshmen come; graduates go. But something of the college tradition remains, for Assumption has a story far older than the oldest grad. That story lives on and grows as the university lives and expands.

This story is your story. To its future chapters you will contribute as students and as graduates of Assumption.

Sincerely,

Victor Michael Power

With its hard core of technicians, announcers, and script writers it promulgated the activities and opinions of Assumption students to radio listeners across South-western Ontario. The club worked hand in hand with professional men at CJSP, Leamington, CKLW, Windsor, and CBE, Windsor.

### *Twentieth Century Club*

The 20th Century Club is the rather streamlined title taken on by students of science at Assumption. In keeping with its name, the club has zoomed ahead with activities, chief of which was the first annual Science Ball, held in November. The club also promotes interest in scientific discussion.

### *Choral Society*

In November of 1959, a new association in the form of the Choral Society began its activities under the personal direction of Maestro Glinski. The society took part in the Christmas Fantasy - comprised of forty-five members. An active program was initiated for this year.

### *Student Guide*

The Student Guide is a book no-one attending university can afford to lose. It contains the address and phone number of each student attending university and various bits of information about school organization. The small staff that puts out this booklet should be commended for their effort.

### *"Sick"*

Sick is the weekly publication put out by a number of students to inform students of current goings-on and to comment, in a humorous way, on current topics of interest to university students. The publication ran into financial difficulty this year, but snapped back by way of a general student donation to its cause.

## *Social*

Social life at Assumption University was always emphasized as an essential part of liberal education.

The Social activities have grown in the last year, along with the intellectual activities of the campus. These pages show the gracious response of the students to the opportunity they have here for an all-round education.

The world-renowned Vienna Choir Boys appeared at the local Capitol Theatre in January. They were brought to Windsor under the auspices of the Christian Culture Series, under the direction of Rev. J. S. Murphy, C.S.B., M. A. The choir is under the direction of Helmuth Frschauer. The boys sang liturgical songs, presented an operetta, and sang from the works of Johann Strauss.

## *Sports*

High-spirited and well-skilled basketball players always seem to congregate at Assumption. Last year, the Lancers walked off with the coveted inter-collegiate trophy, symbolic of basketball championship in Ontario and Eastern Quebec universities.

Assumption students can always feel proud of their team and it's high-ranking coach, trainers and manager.

## *Golf and Tennis*

Tennis has been popular on campus for many years. This sport has come into its own only since Assumption received its university charter in 1953. In the Fall of 1959 our tennis team ventured to McMaster University to compete in the Eastern Canadian Intercollegiate Tennis Championships where Gary Reaume and Harold Barratt battled to the semi-final round before being defeated.

The university golf team is no new comer to the athletic department. The team has stood its own against representative teams from other Canadian universities.

# EDUCATION

*preparation for the work of life*

Ford of Canada encourages young people in their search for education. Over the past six years, 36 university scholarships have been awarded to the sons and daughters of employees. The young men and women chosen may select any approved college or university in Canada. Ford of Canada also helps support a number of youth programs including the Canadian Council for 4-H Clubs. To stimulate creative talent and fine craftsmanship, the Ontario Student Craftsman's Fair selects the projects entered by Ontario students in the Industrial Arts Awards sponsored annually by Ford Motor Company. Teaching aids and educational motion pictures are made available to Canadian schools. In addition, Ford of Canada Dealers in many communities participate in High School driver education projects. We are proud to be associated with many educational activities, because we believe that a sound education is the best preparation for the challenges and opportunities of the future.

### MAYOR MICHAEL PATRICK

I am grateful for the opportunity given me to extend the congratulations and best wishes of the people of the city of Windsor to Assumption University of Windsor.

Windsor and Essex County is indeed fortunate in having educational facilities of such high standards to meet the ever increasing demands for higher education for our boys and girls.

As you continue to grow and expand in accordance with accepted university practice by affiliating with liberal arts colleges and by adding new courses, you will continue to merit the respect and admiration of all our citizens.

**T**ODAY, the opportunities offered by Canada are greater than ever before. And, in step with these opportunities, our country's need for college graduates is equally great.

From the records established by previous students of Assumption University, we know there are none better trained in their chosen fields than you who are graduating this year. With such schooling, you can look forward with confidence to making important contributions to the broader horizons that lie ahead.

We are pleased to have this opportunity of saying a friendly "Hello" to each of you. With God's blessings, may you assume your individual place in Canada's great future with the confidence your schooling warrants.

## THE RCAF

### Big Business

The RCAF is Canada's biggest business — employing some 70,000 people and operating a billion dollar organization. It is a dynamic and expanding one in which application, knowledge and initiative are recognized and fully rewarded.

The aircrew officer works with the most advanced equipment — equipment that demands in its operation people with a developed capacity for learning.

## a time of Decision

As a young man about to graduate from university you will soon be deciding upon your future. This decision if it is to be a sound one will require your careful assessment of all available opportunities, as well as your own potential.

The Royal Canadian Air Force has always offered challenging opportunities in air crew which have attracted university graduates from all faculties. Today, almost without exception, the officers in senior air force appointments are degree men, most of whom have risen to their present positions after entering the RCAF as pilots or observers.

With the expanded role, the advances being made in flying techniques and the heavier demands being placed on executive officers, the RCAF now offers even a greater challenge to the young man with a university background.

espresso  
toro

George Bernard Shaw, asked by a woman what difference there was between the sexes, replied, "Madame, I cannot conceive it."

And we at Espresso Toro feel that conception of the old style coffee house — a place to talk, exchange ideas and rip the mundane world apart — has been buried beneath a welter of chromium and bright lights, its requiem a cacophony of jangling guitars.

At Espresso Toro, as many of you university students already know we are attempting to revive the tradition of the coffee shop — So why not join us there one evening.

Meeting the steel needs of a growing country demands talents of many kinds. Graduates in engineering, the sciences, arts, business administration, commerce, finance -- they all have their places in Stelco's large, progressive, and expanding organization.

To meet demands for steel, Stelco will double its productive capacity in the next 20 years. This expansion will increase employment by Stelco from the present figure of about 15,000 people to about 25,000, and will create for university graduates many opportunities for rewarding and satisfying careers, based upon corporate growth by Stelco, inevitably linked to the growth of Canada.

The demands of our country's future can provide a career for you, with a steel-strong foundation . . . at Stelco!
